

WORKSHOP

INDÚSTRIA CERÂMICA 4.0

2 fevereiro 2017

Micael Couceiro obtained the B.Sc., Teaching Licensure, and M.Sc. degrees in Electrical Engineering at the Engineering Institute of Coimbra, and the Ph.D. degree in Electrical and Computer Engineering at the University of Coimbra, under a Ph.D. Grant from the Portuguese Foundation for Science and Technology. Over the past 8 years, Micael Couceiro has been conducting scientific research on several areas, namely robotics, computer vision, sports engineering, and others. This resulted on more than 50 articles in international impact factor journals, more than 60 articles at international conferences, 2 books, 11 M.Sc. students' supervision, one ongoing Ph.D. student supervision, and the coordination of one half a million project. Micael Couceiro is currently an Associate Researcher at the Institute of Systems and Robotics, a Postdoc Researcher and Invited Lecturer at the Faculty of Human Kinetics (University of Lisbon), and an Invited Professor at the Polytechnic Institute of Tomar. Micael Couceiro is a co-founder and the CEO of Ingeniarius; an SME devoted to the development of robotic solutions and wearable technology.
